

Social Networking

*DAVE*thePCguy.com

Social Networking is the latest craze in the internet community. In this 90 minute seminar we will discuss both personal and professional social networking. Social Networking can be used to make friends and find jobs alike. Some of the topics discussed will be Myspace, facebook, Linkedin, internet blogging, Youtube and others. We will touch upon some good practices and some practices to avoid. Encouraged to attend are parents of teenage and pre-teenage children who will benefit from this seminar as we will talk about some of the dangers that lurk behind the keyboard of others.
